ESD safe

DESCRIPTION

The Treston end frame 830895-49 is a strong, open end frame for the modular shelving system. Its ESD-safe construction dissipates electrostatic charges and is suitable for cleanroom use. It forms the lateral closure of a shelving line.

TECHNICAL DATA

- **Depth:** 400 mm
- **Height:** 2000 mm
- **Width:** 20 mm
- **ESD:** yes
- **Cleanroom-suitable:** yes
- **Warranty:** 5 years

APPLICATIONS

As a lateral end frame for ESD- and cleanroom-suitable shelving systems in electronics manufacturing and laboratories.
