STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The open end frame 851724-49 from Treston forms the side support structure for modular shelving systems. Its open construction allows a flexible build-up and easy access from both sides. At 600 mm deep and 2400 mm high it suits deep, tall storage racks.

TECHNICAL DATA

Feature	Value
Product code	851724-49
Depth	600 mm
Height	2400 mm
ESD	Yes
Cleanroom-suitable	Yes
Warranty	5 years

APPLICATION

- Dissipative to protect electrostatically sensitive components
- Suitable for use in cleanrooms
- Base structure for the modular assembly of tall shelving systems
