

Extraction Arm Set for FA 430 Filter - Hakko C1571

Item no. HK-C1571

Manufacturer Hakko

EAN 4962615035982

Complete extraction arm assembly designed for the Hakko FA 430 fume extraction filter. Features a rectangular nozzle and 1.2 metre hose for flexible workstation positioning and effective solder fume capture.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	84219990
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko C1571 is a dedicated extraction arm set engineered for use with the FA 430 fume extraction filter system. This assembly provides flexible fume capture at the soldering workstation with a rectangular nozzle design optimised for capturing vapours from PCB work areas.

KEY FEATURES

- Designed specifically for FA 430 filter compatibility
- Rectangular nozzle for efficient fume capture over work areas
- 1.2 metre flexible hose for positioning flexibility
- Professional-grade construction for continuous workshop use
- Easy installation and removal from filter unit

TECHNICAL SPECIFICATIONS

Compatible Filter	Hakko FA 430
Nozzle Type	Rectangular
Hose Length	1.2 m
Country of Origin	Japan

APPLICATIONS

Ideal for soldering stations requiring flexible fume extraction. The rectangular nozzle design suits PCB assembly work, rework operations, and general soldering tasks where directional fume capture is essential.

SCOPE OF DELIVERY

- Extraction arm assembly
- Rectangular nozzle
- 1.2 metre hose
