

Desoldering Pump Filter Tube Set - Hakko B5184

Item no. HK-B5184

Manufacturer Hakko

EAN 4962615050732

Genuine replacement filter tube set designed for the Hakko FR 4001 desoldering pump. Ensures consistent suction performance and extends equipment lifespan. Essential maintenance component for professional soldering operations.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.0099 kg

DESCRIPTION

OVERVIEW

The Hakko B5184 is a genuine replacement filter tube set engineered for the FR 4001 desoldering pump. This maintenance component is essential for preserving suction efficiency and operational reliability during extended soldering and desoldering work.

KEY FEATURES

- Genuine Hakko replacement part for FR 4001 desoldering pump
- Maintains consistent vacuum performance
- Prevents solder debris accumulation in pump mechanism
- Easy installation and replacement
- Extends desoldering equipment lifespan
- Manufactured in Japan to Hakko quality standards

TECHNICAL SPECIFICATIONS

Compatibility	Hakko FR 4001 Desoldering Pump
Product Type	Replacement Part
Country of Origin	Japan

APPLICATIONS

Ideal for maintenance and repair of Hakko FR 4001 desoldering pumps in professional electronics assembly, rework, and repair environments. Regular replacement ensures optimal suction performance and prevents equipment damage from solder residue buildup.

SCOPE OF DELIVERY

- Filter tube set for FR 4001 desoldering pump
