

ESD brush Kinetronics SWG-500 for the graphic industry, 500 mm - Kinetronics SWG-500

Item no. SWG - 500

Manufacturer Kinetronics

Conductive StaticWisk ESD brush SWG-500 with a 500 mm working width that dissipates static charge on paper, foils and textiles. Supplied with a ground cord and a magnetic mount with two adjustable ball joints for universal positioning.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
ESD equipment	ESD-Bürste
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg
Width	500

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Wherever material is processed from the roll, winding and unwinding, deflection over rollers and friction generate static charge. This can disrupt downstream processing or damage the material. The Kinetronics StaticWisk ESD brush SWG-500 picks up these charges with soft conductive synthetic fibres and channels them to ground through a grounding cable.

BENEFITS

- Soft conductive synthetic fibres, gentle on paper, foils and textiles
- Grounding cable for safe charge dissipation to ground
- Easily fixable bracket with magnetic foot
- Two adjustable ball joints for universal alignment

TECHNICAL DATA

- Working width: 500 mm (19.5")
- Housing: aluminium extrusion
- Fibres: conductive synthetic, soft
- Mount: magnetic foot with two adjustable ball joints
