

Seal Valve for Nipple - Hakko B 5336

Item no.	HK-B-5336	Manufacturer	Hakko
Manufacturer no.	B 5336	EAN	4962615060014

Genuine Hakko seal valve designed for use with nipple B 5335 in solder pot systems. Ensures reliable solder flow control and prevents leakage.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Japan
HS-Code	85159080

DESCRIPTION

Overview

The Hakko B 5336 is a precision seal valve component designed specifically for use with the nipple B 5335 in Hakko solder pot systems. This replacement part maintains proper solder flow control and prevents unwanted leakage during soldering operations.

Key Features

- Genuine Hakko replacement part
- Compatible with nipple B 5335
- Ensures reliable solder flow control
- Prevents leakage in solder pot systems
- Japanese manufacturing quality

Technical Specifications

Model	B 5336
Type	Seal Valve
Compatible Component	Nipple B 5335
Country of Origin	Japan

Applications

Ideal for maintenance and repair of Hakko solder pot systems where precise solder flow control is essential. Recommended for users requiring replacement of worn or damaged seal valves.
