

Active Soldering Tip 3545BC Format - Hakko T39-BC3545

Item no. HK-T39-BC3545

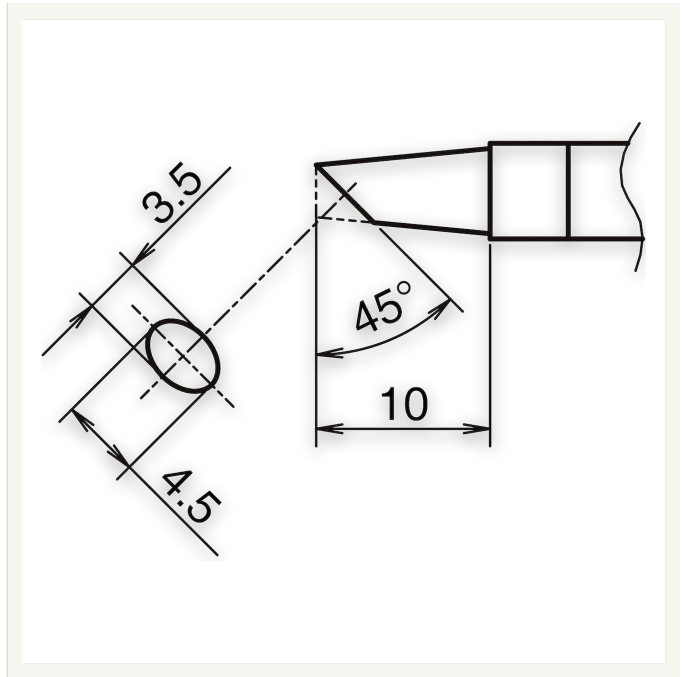

Manufacturer Hakko

EAN 4962615058899

Active soldering tip in 3545BC format designed for the Hakko FX-9701 soldering iron. Delivers reliable heat transfer and consistent solder joint quality for professional electronics assembly and repair applications.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.02 kg

DESCRIPTION

OVERVIEW

The Hakko T39-BC3545 is an active soldering tip engineered in the 3545BC format, specifically designed for use with the Hakko FX-9701 soldering iron. This professional-grade tip combines advanced thermal conductivity with durable construction to ensure consistent performance in demanding soldering applications.

KEY FEATURES

- 3545BC format tip geometry for optimal solder flow and heat distribution
- Active tip design for enhanced thermal efficiency
- Full compatibility with Hakko FX-9701 soldering iron
- Durable construction for extended operational life
- Reliable heat transfer for precision soldering tasks
- Suitable for both through-hole and surface-mount component work

TECHNICAL SPECIFICATIONS

Tip Format	3545BC
Compatible Iron	Hakko FX-9701
Tip Type	Active soldering tip

Country of Origin	Japan
-------------------	-------

APPLICATIONS

Ideal for professional electronics assembly, PCB soldering, component rework, and precision repair work where consistent heat delivery and reliable solder joint formation are critical.
