

Soldering Tip 2535BCF Format - Hakko T39-BCF2535

Item no. HK-T39-BCF2535	Manufacturer Hakko	EAN 4962615058912
-------------------------	--------------------	-------------------

Active soldering tip in 2535BCF format with pre-tinned contact surface. Designed for Hakko FX-9701 and FX-9702 soldering irons. Ensures reliable heat transfer and solder wetting.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.02 kg

DESCRIPTION

OVERVIEW

The Hakko T39-BCF2535 is an active soldering tip in the 2535BCF format, specifically engineered for use with Hakko FX-9701 and FX-9702 soldering irons. The contact surface comes pre-tinned to ensure optimal heat transfer and reliable solder wetting from the first application.

KEY FEATURES

- 2535BCF format design for precise fit and compatibility
- Pre-tinned contact surface for immediate use
- Active tip technology for enhanced thermal performance
- Compatible with FX-9701 and FX-9702 soldering irons
- Designed for professional soldering applications

TECHNICAL SPECIFICATIONS

Tip Format	2535BCF
Compatible Irons	Hakko FX-9701, FX-9702
Surface Treatment	Pre-tinned contact surface
Tip Type	Active soldering tip

Country of Origin	Japan
-------------------	-------

APPLICATIONS

Ideal for general-purpose soldering work, PCB assembly, and rework applications where reliable heat transfer and consistent solder flow are essential.
