

Active Soldering Tip 2.4DS - Hakko T39-DS24

Item no. HK-T39-DS24	Manufacturer Hakko	EAN 4962615059278
----------------------	--------------------	-------------------

Active soldering tip in 2.4DS format designed for the Hakko FX-9701 soldering iron. Delivers reliable heat transfer and precise solder application for professional electronics assembly and repair work.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.02 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

OVERVIEW

The Hakko T39-DS24 is an active soldering tip in 2.4DS format, engineered for use with the Hakko FX-9701 soldering iron. This professional-grade tip provides consistent thermal performance and precise solder placement for demanding electronics assembly and rework applications.

KEY FEATURES

- 2.4DS format design optimized for the FX-9701 iron
- Active tip technology for enhanced heat transfer
- ESD-safe construction for sensitive component protection
- Durable construction for extended service life
- Compatible with standard Hakko soldering stations

TECHNICAL SPECIFICATIONS

Tip Format	2.4DS
Compatible Iron	Hakko FX-9701

Tip Type	Active soldering tip
ESD Safe	Yes
Country of Origin	Japan

APPLICATIONS

Ideal for precision soldering in electronics manufacturing, PCB assembly, component rework, and repair of sensitive electronic devices where reliable thermal performance and ESD protection are essential.
