

Active Soldering Tip SOP 10L - Hakko T51-L10

Item no. HK-T51-L10 Manufacturer Hakko EAN 4962615060557

Active soldering tips in SOP 10L format designed for the Hakko FX-9705 precision soldering tweezers. Pack contains 2 replacement tips. Ideal for fine-pitch component soldering and rework applications.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.02 kg

DESCRIPTION

OVERVIEW

The Hakko T51-L10 is a set of two active soldering tips in SOP 10L format, specifically engineered for use with the Hakko FX-9705 precision soldering tweezers. These tips deliver consistent heat transfer and are ideal for soldering small-outline packages and fine-pitch components in professional electronics assembly and rework environments.

KEY FEATURES

- SOP 10L format optimized for small-outline package soldering
- Active heating element for reliable thermal performance
- Compatible with Hakko FX-9705 precision tweezers
- Pack of 2 replacement tips
- Professional-grade construction for extended service life
- Designed for precision soldering and rework applications

TECHNICAL SPECIFICATIONS

Tip Format	SOP 10L
Compatible Equipment	Hakko FX-9705 Soldering Tweezers
Quantity per Pack	2 tips

Tip Type	Active heating
Country of Origin	Japan

APPLICATIONS

The T51-L10 tips are ideal for soldering and rework of small-outline integrated circuits, fine-pitch connectors, and other miniature components in telecommunications, consumer electronics, medical devices, and industrial control applications.

SCOPE OF DELIVERY

- 2 × Active soldering tips SOP 10L format
