

Active Soldering Tip SOP 13L - Hakko T51-L13

Item no. HK-T51-L13

Manufacturer Hakko

EAN 4962615060564

Active soldering tips in SOP 13L format designed for the Hakko FX-9705 precision tweezers. Pack contains 2 replacement tips for reliable SMD component soldering and rework applications.

TECHNICAL DATA

Country of Manufacture	Japan
HS-Code	85159080
Weight	0.02 kg

DESCRIPTION

OVERVIEW

The Hakko T51-L13 is a set of active soldering tips specifically engineered for use with the FX-9705 precision soldering tweezers. These tips feature the SOP 13L format, making them ideal for surface-mount device (SMD) soldering and fine-pitch component work. The pack includes 2 replacement tips to ensure continuous operation during rework and assembly tasks.

KEY FEATURES

- SOP 13L format for precise SMD soldering
- Compatible with Hakko FX-9705 tweezers
- Active heating element for consistent thermal performance
- Pack of 2 tips for extended operational life
- Designed for fine-pitch and miniature component applications
- Reliable heat transfer for quality solder joints

TECHNICAL SPECIFICATIONS

Tip Format	SOP 13L
Compatibility	Hakko FX-9705 Tweezers
Quantity per Pack	2 Tips

Tip Type	Active Soldering Tip
Country of Origin	Japan

APPLICATIONS

These active soldering tips are ideal for SMD rework, fine-pitch component soldering, and precision assembly work. They are particularly suited for applications requiring consistent heat delivery to small solder joints on surface-mount devices.

SCOPE OF DELIVERY

- 2 × Active Soldering Tips SOP 13L Format
