

ESD coiled cord, 1 MOhm, 10 mm snap, banana plug, crocodile clip, 2.4 m, yellow - Safeguard WL42103

Item no. WL42103

Manufacturer Safeguard

ESD grounding cord with 10 mm snap, banana plug and crocodile clip for flexible grounding of equipment and benches. Extends to 2.4 m, built-in 1 MOhm safety resistor. Not for wrist strap grounding.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
-------------------	-------------------------

Colour	Yellow
--------	---------------

Norm	IEC 61340-5-1
------	----------------------

Sales unit	1 Stück
------------	----------------

Weight	0.1 kg
--------	---------------

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

This ESD coiled cord with 10 mm snap, banana plug and crocodile clip grounds benches, mats and equipment and drains charges in a controlled way. The three connector types allow flexible use at different ground points.

BENEFITS

- Built-in 1 MOhm safety resistor limits the discharge current
- 10 mm snap, banana plug and crocodile clip for versatile connections
- Coiled form extends to 2.4 m and retracts

TECHNICAL DATA

- Electrical resistance: 1 MOhm (typical leakage resistance $R = 1 \times 10^6 \text{ Ohm}$)
- Extended length: 2400 mm
- Connection: 10 mm snap / banana plug / crocodile clip
- Colour: yellow
- Selling unit: 1 piece

APPLICATIONS

For grounding equipment, benches and mats at the ESD workstation. Not for wrist strap grounding.

STANDARDS AND COMPLIANCE

Suitable for grounding to IEC 61340-5-1, tested to BGI 818:2001.
