

Lower contacts as spare part for TRA soldering tools - JBC 0026848

Item no. WL60690

Manufacturer JBC

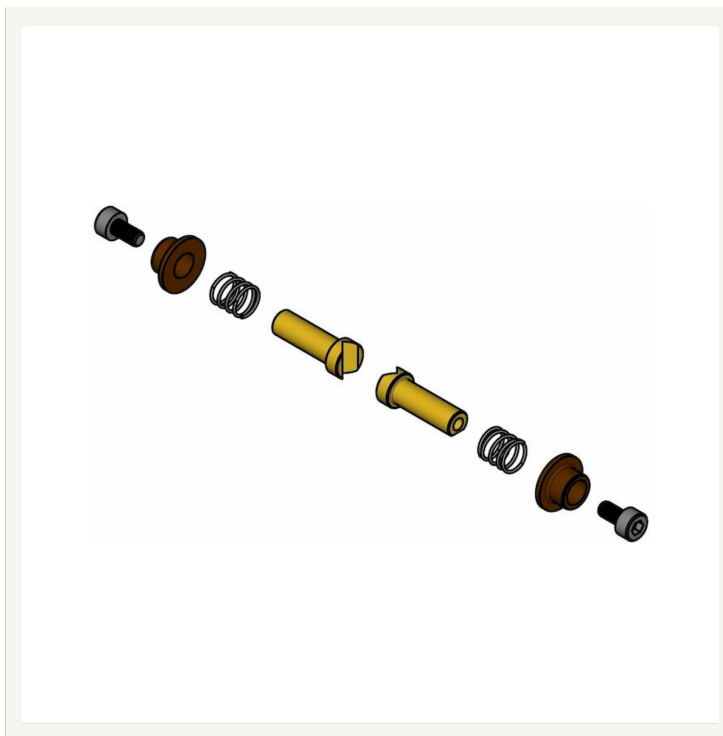

Lower contacts as a spare part for JBC TRA soldering tools. They make the electrical connection to the soldering cartridge and ensure stable power and signal transfer.

TECHNICAL DATA

Country of Manufacture **Spain**

HS-Code **85159080900**

Weight **0.1 kg**

DESCRIPTION

The JBC 0026848 are the lower contacts as a spare part for JBC TRA soldering tools. They make the electrical connection to the soldering cartridge and ensure stable power and signal transfer in the tool. As a wear part they are replaced when contact weakens or visible wear appears, keeping the full heating performance.

BENEFITS

- Secure electrical contact to the soldering cartridge.
- Genuine JBC part, precise fit for TRA.
- Maintains the full heating and control performance of the tool.
- Light (0.1 kg), replaced as part of maintenance.

TECHNICAL DATA

Article number	0026848
Type	Lower contacts, wear part
Use	JBC TRA soldering tools
Pack size	1 piece
ESD-safe	no
Weight	0.1 kg

APPLICATIONS

Maintenance of JBC TRA soldering tools in automated soldering and rework systems.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for JBC TRA soldering tools (e.g. TRA245). Scope of delivery: 1 set of lower contacts.

Manufacturer JBC, Spain.
