DESCRIPTION

Soldering small SMD components without a fixed power supply calls for low weight and precise control. The battery-powered B-IRON DUAL NANO offers two ergonomic B-NANO handpieces whose short distance between tip and grip ensures exceptional control for meticulous work.

BENEFITS

- Two lightweight B-NANO nano handpieces for high-precision SMD soldering
- Battery operation for cordless work, 15 W output at 12 V
- Temperature range 100 to 450 °C
- Fully compatible with the C115 cartridge range
- Power-saving mode by fitting the cap; charging station charges the tool automatically in the holder
- Portable 7-inch screen (PDS) with B-IRON App for configuration and control
- Quick cartridge changer, tip cleaner with brass wool and anti-splash membrane
