

ESD stand DTS for DT530 desoldering iron, with quick-change filter and tip cleaner - JBC DT-SB

Item no. WL86677

Manufacturer JBC

ESD stand for the angled DT530 desoldering iron on the DDE and DME control units. Intelligent heat management lowers tip temperature in the stand and extends tip life by up to 5 times.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Country of Manufacture **Spain**

HS-Code **85159080900**

Weight **0.1 kg**

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The DT-SB is the DTS ESD stand for the angled JBC DT530 desoldering iron. It holds the tool safely, cools and protects the tip during breaks, and combines cleaning and filtration in one place. The stand works exclusively with the DT530 desoldering iron and the DDE and DME control units.

BENEFITS

- Intelligent heat management detects the tool in the stand and lowers the tip temperature below the solder melting point
- Hibernation function cuts power and prevents oxidation, giving up to 5 times longer tip life
- Quick-change filters make maintenance simpler and safer
- Tip cleaner with brass wool, splash guard and anti-splash membrane keep the work area free of solder particles
- Tip holder for up to four tips and adjustable tool holder position
- Cable collector keeps cables away from the work area
