

Optimum PTFE-lined dispensing tip 22 GA, 0.41 mm ID, blue - Nordson EFD 7018290

Item no. WL28945

Manufacturer Nordson EFD

Wicking leaves drips and wastes material. The PTFE-lined Optimum dispensing tip gives a fast, clean break-off and suits particle-filled and optical media. The blue SafetyLok hub locks securely onto the barrel.

TECHNICAL DATA

Colour	Blue
Weight	0.1 kg

DESCRIPTION

The PTFE-lined Optimum dispensing tip controls wicking and stops dripping for clean, repeatable deposits.

- PTFE lining for a fast, clean break-off and less material waste
- 0.41 mm inner diameter (22 GA), colour-coded blue hub for quick identification
- SafetyLok thread for a secure, positive fit on the barrel
- Silicone-free manufacture, suited to particle-filled and optical media
