DESCRIPTION

This remote antenna extends the SCS EYE-Meter with a flexible measuring option for locations that are hard to reach with the base instrument. The 6-foot cable lets you position the sensor head freely.

Benefits

- Measures electrostatic fields in hard-to-reach locations
- Special version for very high ambient temperatures
- Remote sensor head for more freedom around the test object

Technical data

- Type: remote antenna
- Compatibility: SCS EYE-Meter
- Version: high-temperature capable

Applications

Field strength measurements in reflow ovens, on hot process lines and in confined areas of the ESD protected area.
