

ESD Case Blackline conductive, 400 x 300 x 63 mm, 15 kg load - WEZ EP0705021

Item no. EP0705021**Manufacturer WEZ**

Conductive ESD case from the Blackline range in the 400 x 300 mm standard footprint, made up of a stacking container, a hinged lid and a carrying handle on the long side. With 48 mm usable height and 5.2 l capacity it takes up to 15 kg while weighing only 640 g itself. Intended for carrying electronic assemblies between workstations inside the EPA.

TECHNICAL DATA

Weight

0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Anyone moving populated boards by hand between two workstations in the EPA needs a closed container that drains the charge and protects the parts mechanically. The conductive Blackline case in the 400 x 300 mm standard footprint holds up to 15 kg over its 48 mm of usable height and can be carried in one hand.

BENEFITS

- Conductive Blackline construction, so charge generated during handling drains in a controlled way instead of collecting on the container.
- **15 kg load capacity** at an empty weight of only 640 g.
- Hinged lid and closed side walls keep dust and swarf away from the components, and the lid stays attached to the container rather than getting lost.
- Carrying handle on the long side plus moulded grip ledges around the body for safe control when lifting and when placing the case on a shelf.
- Outer footprint of 400 x 300 mm to SGL standard, a common grid size in storage equipment.

TECHNICAL DATA

Article number	EP0705021
Brand	WEZ
Range	Blackline
Version	conductive, ESD
Outer dimensions	400 x 300 x 63 mm
Inner dimensions	354 x 254 x 48 mm
Usable height	48 mm
Capacity	5.2 l
Load capacity	15 kg
Weight	640 g
Material	PP
Colour	black
Base	flat 007, closed
Side walls	closed, with grip ledges
Carrying handle	1 piece, on the long side
Units per pallet	208 pieces
eClass	14070604
UNSPSC	24125000
Minimum order	1 piece

APPLICATIONS

The usual route is in-house, between assembly, test bench and repair, along with protected interim storage of part-finished units on the shelf. The 48 mm usable height suits flat goods such as boards, displays or small parts held in inserts.

SCOPE OF DELIVERY

Blackline stacking container, Blackline hinged lid and carrying handle, assembled as a complete case. Manufactured by WEZ Kunststoffwerk AG in Oberentfelden, Switzerland.
