

Hot Air Nozzle SIP 25L - Hakko A 1191

Item no. HK-A 1191

Manufacturer Hakko

EAN 4962615515293

SIP 25L hot air nozzle without vacuum function for Hakko hot air stations 850, 852, FR 801, FR 802, and FR 803. Compatible replacement nozzle for professional rework applications.

TECHNICAL DATA

Country of Manufacture	China
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.1 kg

DESCRIPTION

OVERVIEW

The Hakko A 1191 is a hot air nozzle designed for use with Hakko hot air rework stations. This SIP 25L nozzle operates without vacuum function and is compatible with multiple station models, making it an essential replacement or spare component for professional electronics rework and repair work.

KEY FEATURES

- SIP 25L nozzle design for hot air application
- Compatible with Hakko stations 850, 852, FR 801, FR 802, and FR 803
- Non-vacuum operation for standard hot air rework
- Professional-grade construction for reliable performance
- Replacement accessory for existing Hakko systems

TECHNICAL SPECIFICATIONS

Model	A 1191
Nozzle Type	SIP 25L
Vacuum Function	No
Compatible Stations	850, 852, FR 801, FR 802, FR 803

Country of Origin	China
-------------------	-------

APPLICATIONS

Ideal for component rework, BGA rework, QFP rework, and general hot air soldering applications on PCBs. Suitable for professional electronics repair and manufacturing environments.
