

Hot Air Nozzle SIP 50 L - Hakko A 1192

Item no. HK-A 1192

Manufacturer Hakko

EAN 4962615515309

SIP 50 L hot air nozzle without vacuum function for Hakko rework stations 850, 852, FR 801, FR 802, and FR 803. Precision component removal and rework applications.

TECHNICAL DATA

Country of Manufacture	China
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.1 kg

DESCRIPTION

OVERVIEW

The Hakko A 1192 is a hot air nozzle designed for use with Hakko rework stations. The SIP 50 L nozzle provides focused hot air delivery for precision soldering and desoldering applications without integrated vacuum functionality.

KEY FEATURES

- SIP 50 L nozzle design for targeted heat application
- Compatible with multiple Hakko rework station models
- Precision engineering for component-level work
- Durable construction for repeated use
- Easy installation and replacement

COMPATIBILITY

This nozzle is compatible with the following Hakko rework stations: 850, 852, FR 801, FR 802, and FR 803.

APPLICATIONS

Ideal for PCB rework, component removal, solder reflow, and precision soldering tasks in electronics

manufacturing and repair environments.
