

Hot Air Nozzle 3mm - Hakko NA01-C30

Item no.	HK-NA01-C30	Manufacturer	Hakko
Manufacturer no.	NA01-C30	EAN	4962615064043

Replacement hot air nozzle with 3mm diameter opening for the Hakko FR-850 hot air rework station. Designed for precise heating of small components during SMD soldering and desoldering operations.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Japan
HS-Code	85159080
Note	Es gibt keine Lieferung von Hakko Produkten in die Schweiz
Weight	0.1 kg

DESCRIPTION

Overview

The Hakko NA01-C30 is a precision hot air nozzle designed specifically for use with the Hakko FR-850 hot air rework station. With a 3mm diameter opening, this nozzle provides focused, concentrated heat delivery for fine-pitch component work and detailed soldering applications.

Key Features

- 3mm diameter nozzle opening for precise heat concentration
- Compatible with Hakko FR-850 hot air station
- Durable construction for extended operational life
- Optimized airflow design for consistent heating performance
- Replacement component for maintenance and repair

Technical Specifications

Nozzle Type	Hot Air Nozzle
--------------------	----------------

Nozzle Diameter	3mm
Compatible Station	Hakko FR-850
Country of Origin	Japan

Applications

Ideal for rework and repair of surface-mount devices (SMD), fine-pitch component soldering, and desoldering operations requiring concentrated heat application. Suitable for electronics manufacturing, repair shops, and prototype development.

Scope of Delivery

- 1× Hot Air Nozzle NA01-C30 (3mm)
