Weight	0.1 kg

DESCRIPTION

OVERVIEW

The Hakko T12-1404 is a premium soldering tip featuring a spatula format with 25mm width. This broad, flat-faced design is ideal for soldering applications requiring large contact surfaces, such as component placement, board-level work, and general-purpose soldering tasks. Manufactured in Japan to Hakko's exacting standards.

KEY FEATURES

- Spatula format with 25mm width for broad surface contact
- Compatible with Hakko T12 handpiece systems
- Premium Japanese manufacturing quality
- Optimized heat transfer for efficient soldering
- Durable construction for extended service life

TECHNICAL SPECIFICATIONS

Tip Format	Spatula
Tip Width	25mm
Model	T12-1404
Compatibility	Hakko T12 handpieces

APPLICATIONS

The T12-1404 spatula tip is well-suited for broad-area soldering, component placement, thermal management applications, and general-purpose soldering work where maximum contact surface is beneficial.
