DESCRIPTION

OVERVIEW

The Hakko T12-1405 is a replacement soldering tip in spatula format, size 32, engineered for use with Hakko FM 2027 and FM 2028 soldering irons. This precision-crafted tip delivers consistent heat distribution and reliable solder flow for professional electronic assembly, repair, and rework applications.

KEY FEATURES

- Spatula format design for broad surface contact and heat transfer
- Size 32 specification optimized for medium to large solder joints
- Compatible with Hakko FM 2027 and FM 2028 soldering irons
- High-quality construction for extended service life
- Designed for precision soldering in electronics manufacturing and repair

TECHNICAL SPECIFICATIONS

Tip Type	Spatula
Tip Size	32
Compatible Irons	Hakko FM 2027, FM 2028
Country of Origin	Japan

APPLICATIONS

Ideal for soldering larger surface area components, PCB assembly, wave soldering preparation, and general rework applications where broad heat distribution is required.
