DESCRIPTION

Slotted screws positioned at significant depth in enclosures, terminal blocks, or structural components require the extended reach of the Wiha 302 SoftFinish 150 mm version. The 3.0 mm round blade maintains a firm seat in the slot while the SoftFinish handle reduces strain on wrists and muscles even under load.

BENEFITS

- 150 mm blade length reaches deeply embedded slotted screws without extension adapters
- SoftFinish® two-component handle for efficient hand-force transmission and reduced fatigue
- 0.5 mm cutting edge thickness ensures stable engagement in 3.0 mm slot profiles
- Complementary size to DIN dimensions for a complete tool range
- Roll-off protection at the handle end for controlled placement on work surfaces
