

Screwdriver SoftFinish® Slotted Round Blade 4.0 x 150 mm for Low-Lying Screws - Wiha 00694

Item no. WH-00694

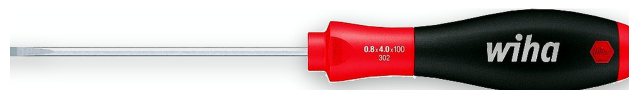

Manufacturer Wiha

EAN 4010995006945

The Wiha 302 SoftFinish slotted screwdriver with a 4.0 mm round blade and 150 mm length combines extended reach with the 30 mm handle diameter needed for higher torque on medium-sized recessed screws. Total length 261 mm, complementary DIN size.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82054000
Weight	0.059 kg

DESCRIPTION

Reaching a 4.0 mm slotted screw deep inside a housing while applying sufficient torque to tighten it properly requires both a long blade and a large-grip handle. The Wiha 302 SoftFinish 4.0 mm x 150 mm provides both, with 150 mm visible blade length and a 30 mm grip diameter that enables adequate torque output.

BENEFITS

- 150 mm blade length reaches recessed 4.0 mm screw heads without an extension adapter
- 30 mm handle diameter allows sufficient torque for medium-size slotted screws
- 0.8 mm cutting edge thickness for exact engagement in the screw slot
- SoftFinish® two-component handle for ergonomic force transmission and reduced fatigue
- Complementary size to DIN dimensions

TECHNICAL DATA

- Slot width: 4.0 mm
- Cutting edge thickness: 0.8 mm
- Round blade diameter: 4.0 mm
- Handle diameter: 30 mm
- Visible blade length: 150 mm
- Overall length: 261 mm

APPLICATIONS

For low-lying 4.0 mm slotted screws in housings, control cabinets, and structural components with greater installation depth. Designed for dry environments. Complementary size to DIN dimensions.

Manufactured in Germany. HS code 82054000.
