

ESD Handle Roller with 2 Wood Shelves 600 x 450 mm - Fetra 1820

Item no. FE-1820

Manufacturer Fetra

EAN 4017976491820

Dissipative ESD handle roller with two wood shelves of 600 x 450 mm for the safe transport of electronic assemblies. Load capacity 250 kg, ergonomic push bar and total-stop parking brake.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
HS-Code	87168000
Warranty	10 years
Weight	15 kg

STANDARDS & COMPLIANCE

ESD safe **DIN EN 61340-5-1**

DESCRIPTION

The ESD handle roller 1820 moves electronic assemblies and ESD-sensitive parts safely between workstations. Its two wood shelves, top and bottom each 600 x 450 mm, are dissipative and protect the load to DIN EN 61340-5-1.

KEY BENEFITS

- Fully dissipative ESD design to DIN EN 61340-5-1
- Two shelves of 600 x 450 mm double the load area
- 250 kg load capacity for heavy assemblies and containers
- Total-stop parking brake secures the trolley at the workplace
- Ergonomic push bar for back-friendly manoeuvring

TECHNICAL DATA

- Shelves: 2 pcs, each 600 x 450 mm, dissipative wood
- Load capacity: 250 kg
- Tyres: dissipative solid rubber wheels
- Brake system: total-stop

- Net weight: 15 kg

APPLICATIONS

In-plant transport in electronics manufacturing, test areas and EPA zones.

QUALITY AND SERVICE

Made in Germany, 10-year warranty.
