DESCRIPTION

The Fetra 92911 ESD side trolley brings material right to the assembly or test station. The electrically conductive, ESD-compliant design dissipates static charges in a controlled way and protects sensitive electronic components during in-house transport. The with closed shelves layout and the 600 x 400 mm load area suit Euro containers in 600 x 400 mm format.

KEY BENEFITS

- The electrically conductive, ESD-compliant design dissipates static charges in a controlled way and protects sensitive electronic components during in-house transport.
- Compact footprint 600 x 400 mm, sized for Euro containers
- With closed shelves
- Four swivel castors, two with brakes, hold the cart securely in place.
- Powder-coated steel construction
