

Box trolley with aluminium walls 750 kg, 1200 x 780 mm - Fetra 5593

Item no. FE-5593

Manufacturer Fetra

EAN 4017976019161

Enclosed transport trolley with aluminium walls and 750 kg total load capacity for in-plant material handling. The 1200 x 780 mm load area and the lockable closure secure the load against falling out and unauthorised access. TPE tyres on 200 mm wheels run quietly and protect the floor.

TECHNICAL DATA

Ausführungsklasse **TEC**Country of Manufacture **Germany**HS-Code **87168000**Warranty **10 years**Weight **173 kg**

DESCRIPTION

The 5593 box trolley moves piece goods, small parts and order-picking loads through the plant under protection. The enclosed design with aluminium walls keeps the load together, and the lockable closure secures it against falling out and unauthorised access.

BENEFITS

- 750 kg total load capacity for heavy multi-shift transport
- 1200 x 780 mm load area takes bulky goods and several containers
- Lockable closure protects the load against theft and loss
- TPE tyres on 200 mm wheels run quietly and leave no floor marks
- Torsion-resistant welded frame for long continuous service

TECHNICAL DATA

- Total load capacity: 750 kg
- Load per shelf: 90 kg
- Usable area: 1200 x 780 mm
- Shelf heights: 292, 582, 882, 1182, 1482 mm
- Number of shelves: 5
- Overall dimensions (L x W x H): 1370 x 845 x 1792 mm
- Wheel size: 200 mm
- Tyres: TPE

- Walls: aluminium walls

APPLICATIONS

In-plant material handling in production, warehouse, workshop and dispatch. Suitable for order picking and the protected transport of sensitive or valuable goods.

QUALITY AND WARRANTY

Made in Germany. 10-year manufacturer warranty.
