DESCRIPTION

Slotted screws deep inside control cabinets, pipes, or large housings demand the maximum reach of the Wiha 302 SoftFinish 200 mm version. The 3.0 mm round blade seats precisely in the screw slot, and the SoftFinish handle transmits even the higher torque that long-blade applications require.

BENEFITS

- 200 mm blade length for extreme installation depths in control cabinets and tube structures
- SoftFinish® two-component handle reliably transmits torque with the extended blade
- 0.5 mm cutting edge thickness for exact engagement in 3.0 mm slot profiles
- Complementary size to DIN dimensions
- Roll-off protection and printed screw symbol for efficient, safe work
