

Pallet dolly 1200 kg for mesh boxes and flat pallets - Fetra 23892-7016

Item no. FE-23892/7016

Manufacturer Fetra

EAN 4017976655338

Sturdy angle-steel pallet dolly with 1200 kg capacity that makes flat pallets and mesh boxes mobile. Four locating corners hold the load securely, and the low 235 mm clearance makes pick-up easy.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	73269098
Warranty	10 years
Weight	35 kg

DESCRIPTION

The 23892-7016 pallet dolly mobilises parked flat pallets and mesh boxes while carrying up to 1200 kg. The welded angle-steel frame with four locating corners is powder-coated in Grey Edition (RAL 7016) and holds the load with a positive fit.

BENEFITS

- 1200 kg capacity for heavy pallets and mesh boxes
- 4 locating corners secure the load against shifting
- Low 235 mm clearance for easy pick-up
- 3 swivel castors with polyamide wheels, hubs with precision bearings
- 2 castors with total lock set diagonally, 1 castor electrically conductive

TECHNICAL DATA

- Capacity: 1200 kg
- Accepts: flat pallets and mesh boxes
- Height: 140 / 422 mm
- Clearance: 235 mm
- Tyres: polyamide
- Brake: 2 swivel castors with total lock
- Construction: welded angle steel, powder-coated RAL 7016
- Net weight: 35.0 kg

APPLICATIONS

For tugger trains and in-plant transport where flat pallets and mesh boxes need to move without a forklift.

ORIGIN AND WARRANTY

Made in Germany. 10-year Fetra warranty.
