

Self-tipping skip 350 litres 1000 kg - Fetra 6030

Item no. FE-6030

Manufacturer Fetra

EAN 4017976060309

Mobile self-tipping skip with 350 litres capacity and 1000 kg load for swarf, scrap and production waste. The container tips in a controlled way under the load's own weight and returns automatically after emptying.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	73090090
Warranty	10 years
Weight	126 kg

DESCRIPTION

The 6030 self-tipping skip collects and empties swarf, scrap and waste in one operation. When released, the 350-litre container tips automatically under the weight of the load and rights itself again afterwards.

BENEFITS

- 350 litres capacity at 1000 kg load for heavy bulk material
- Automatic tipping under the load's own weight, no effort required
- Automatic return to the starting position after emptying
- Sturdy steel construction for industrial continuous use

TECHNICAL DATA

- Load capacity: 1000 kg
- Capacity: 350 litres
- Overall dimensions (L x W x H): 1294 x 731 x 843 mm
- Tipping-edge height with castors: 981 mm
- Version: ohne Ablasshahn

APPLICATIONS

Collecting and emptying metal swarf, punching waste, scrap and production residue in machining,

stamping and manufacturing.

QUALITY AND WARRANTY

Made in Germany. 10-year manufacturer warranty.
