

Rear Mesh Panel 1250 x 1825 mm for Order-Picking Trolleys - Fetra 28RW32

Item no. FE-28RW32

Manufacturer Fetra

EAN 4017976328324

Bright zinc-plated rear mesh panel 1250 x 1825 mm for galvanised fetra order-picking trolleys. Welded wire mesh with a 100 x 50 mm grid, bolt-on as a side wall and matched to 1250 x 610 mm load areas.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	87169090
Warranty	10 years
Weight	7.14 kg

DESCRIPTION

The 28RW32 rear panel adds a sturdy side wall to galvanised fetra order-picking trolleys and secures the load against falling off. It bolts on at the side and is sized to the 1250 x 1825 mm trolley.

KEY BENEFITS

- Welded wire mesh, bright zinc-plated for lasting corrosion protection
- 100 x 50 mm mesh also retains smaller packages
- Bolts on as a side wall, available in 3 heights and 3 widths to suit the trolley types
- Matched to 1250 x 610 mm load areas

TECHNICAL DATA

- Usable length x overall height: 1250 x 1825 mm
- Mesh size: 100 x 50 mm
- Finish: bright zinc-plated
- Mounting: bolt-on side wall
- Suits load area: 1250 x 610 mm

APPLICATIONS

For picking and staging trolleys in warehousing, dispatch and production where loose or stacked goods need lateral support.

QUALITY AND SERVICE

Made in Germany, 10-year warranty.
