

Manual Stacker 500 kg (hand-hydraulic pump), fork length 1.150 mm - Fetra 6855

Item no. FE-6855

Manufacturer Fetra

EAN 4017976068558

Manual high-lift stacker with hand-hydraulic pump drive for stacking and loading without a power supply. 500 kg capacity and 1.150 mm fork length, ideal for occasional lifting in storage and workshop.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	China
HS-Code	84279000
Warranty	10 years
Weight	210 kg

DESCRIPTION

The Fetra manual stacker 6855 lifts and stacks loads without a power supply, using only the hand-hydraulic pump. The hand-hydraulic pump raises the fork with a few strokes and little effort. With a capacity of 500 kg it suits occasional loading of shelves, machines and vehicles where an electric stacker is not worthwhile.

KEY BENEFITS

- 500 kg capacity without a power supply
- Hand-hydraulic pump drive for stepless, low-effort lifting
- 1.150 mm fork length for pallets and loads
- Compact, agile build for tight storage areas
- Stable chassis with swivel and fixed castors

TECHNICAL DATA

- Load capacity: 500 kg
- Fork length: 1.150 mm
- Drive: hand-hydraulic pump
- Net weight: 210 kg
- Material: steel, painted

APPLICATIONS

Storing and retrieving on shelves, machine feeding, goods-in and workshop use with low lifting frequency.

WARRANTY

2-year warranty from Fetra.
