

Screwdriver SoftFinish® ESD Phillips PH1 x 80 mm antistatic - Wiha 08185

Item no. WH-08185

Manufacturer Wiha

EAN 4010995081850

The Wiha SoftFinish® ESD Phillips screwdriver PH1 x 80 mm is designed for work on electrostatically sensitive components and certified to IEC 61340-5-1. The 30 mm handle diameter allows confident driving of PH1 screws with adequate torque.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
ESD equipment	ESD Schraubendreher
HS-Code	82054000
Weight	0.057 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

ESD-safe tools are essential when working on electrostatically sensitive assemblies. The Wiha SoftFinish® ESD Phillips PH1 x 80 mm maintains surface resistance between 10^6 and 10^9 ohm as required by IEC 61340-5-1, protecting PCBs and semiconductors from electrostatic discharge damage. The balanced SoftFinish® handle supports both fast and controlled fastening.

BENEFITS

- ESD-certified to IEC 61340-5-1 - reliable protection for sensitive electronics
- Dissipative static discharge path - no abrupt voltage release
- SoftFinish® handle (dia. 30 mm) with hard and soft zones - fast and powerful turning
- PH1 for medium cross-head screws - wide range of electronics applications
- Chrome-vanadium-molybdenum steel, matt chrome-plated - durable blade

TECHNICAL DATA

- Profile: Phillips PH1
- Round blade diameter: 4.5 mm
- Visible blade length: 80 mm
- Handle diameter: 30 mm

- Overall length: 191 mm
- Surface resistance: 10^6 - 10^9 ohm

APPLICATIONS

For assembly and service on PCBs, switching devices, and electronic systems with Phillips PH1 screws. Suitable for EPA workstations per IEC 61340-5-1.

Made in Germany. HS code 82054000. Standard: IEC 61340-5-1.
