

Screwdriver SoftFinish 530 Slotted with Steel Cap 4.5 x 90 mm - Wiha 03224

Item no. WH-03224

Manufacturer Wiha

EAN 4010995032241

The Wiha 530 SoftFinish slotted screwdriver with solid steel cap and one-piece hex blade enables targeted hammer blows and higher torque transfer via an open-end spanner. Blade width 4.5 mm, blade length 90 mm, chrome-vanadium-molybdenum steel, matt chrome-plated. Recommended by the AGR. Additional dimension, non-DIN size.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82054000
Weight	0.075 kg

DESCRIPTION

For larger slotted screws that are seized or corroded, the Wiha 530 (4.5 x 90 mm) offers two release methods: the solid steel cap transmits hammer blows directly to the blade without energy loss, and the hex bolster allows an open-end spanner to apply torque beyond what hand driving can achieve.

BENEFITS

- Solid steel cap directly connected to blade - lossless transmission of hammer strikes
- 4 mm hex blade bolster for spanner use - higher torque than manual driving
- Chrome-vanadium-molybdenum steel, matt chrome-plated - durable and corrosion resistant
- SoftFinish handle 30 mm - recommended by German AGR doctors and therapists
- Blade width 4.5 mm, blade length 90 mm - additional dimension, non-DIN size

TECHNICAL DATA

- Drive profile: Slotted 4.5 mm
- Cutting strength: 0.8 mm
- Hex blade diameter: 4 mm
- Visible blade length: 90 mm
- Handle diameter: 30 mm
- Overall length: 201 mm
- Material: Chrome-vanadium-molybdenum steel, matt chrome-plated

APPLICATIONS

Particularly suitable for dry applications in industry and trade. Ideal for loosening seized or corroded slotted screws by striking and chiselling, or by applying higher torque via an open-end spanner. Additional dimension to DIN sizes.

Origin: Germany (DEU). HS code: 8205 4000.
