

Screwdriver SoftFinish® ESD Phillips PH2 x 100 mm antistatic - Wiha 08186

Item no. WH-08186

Manufacturer Wiha

EAN 4010995081867

The Wiha SoftFinish® ESD Phillips screwdriver PH2 x 100 mm protects electrostatically sensitive components through controlled charge dissipation to IEC 61340-5-1. The large-volume handle (36 mm diameter) allows high torque when driving PH2 screws in enclosures and mounting points.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
ESD equipment	ESD Schraubendreher
HS-Code	82054000
Weight	0.099 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

ESD-safe tooling is a requirement when working on assemblies susceptible to electrostatic discharge. The Wiha SoftFinish® ESD Phillips PH2 x 100 mm meets IEC 61340-5-1 with a surface resistance between 10^6 and 10^9 ohm. The large-volume SoftFinish® handle (dia. 36 mm) allows the application of high torques - important for PH2 fasteners in housings and mounting brackets.

BENEFITS

- ESD-certified to IEC 61340-5-1 - reliable static charge dissipation
- Surface resistance 10^6 - 10^9 ohm - dissipative, no voltage spike
- Large-volume handle dia. 36 mm - high torque capability
- SoftFinish® hard and soft zones - secure, non-slip grip
- Chrome-vanadium-molybdenum steel, matt chrome-plated - long-lasting blade

TECHNICAL DATA

- Profile: Phillips PH2
- Round blade diameter: 6 mm
- Visible blade length: 100 mm
- Handle diameter: 36 mm

- Overall length: 218 mm
- Surface resistance: 10^6 - 10^9 ohm

APPLICATIONS

For assembly and service on control cabinets, electronics enclosures, and systems with Phillips PH2 screws in ESD-sensitive areas. Suitable for EPA workstations per IEC 61340-5-1.

Made in Germany. HS code 82054000. Standard: IEC 61340-5-1.
