

Folding Ruler Longlife All in One 2 m 10 Segments 15 mm Metric - Wiha 33232

Item no. WH-33232

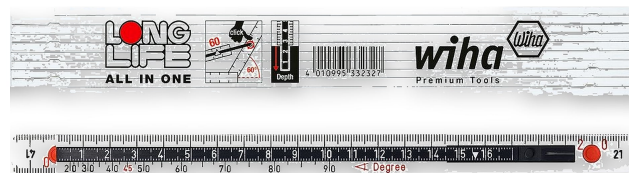

Manufacturer Wiha

EAN 4010995332327

The Wiha Folding Ruler Longlife All in One 2 m combines length, depth and angle measurement in a single tool: push-out depth gauge, reverse scale for reading from both sides (recto verso), and fixation hole for angle measurements. Fibreglass-reinforced polyamide, play-free spring joint, CE class III.

TECHNICAL DATA

Ausführungsklasse	TEC
Colour	White
Country of Manufacture	Switzerland
HS-Code	90178010
Weight	0.139 kg

DESCRIPTION

The Longlife All in One 2 m replaces three individual measuring tools on a job site. Rather than carrying a separate depth gauge and protractor, both functions are built directly into the folding ruler. The play-free spring joint with 90-degree detent holds the segments securely in position.

BENEFITS

- Three measurement functions in one: length, depth and angle
- Reverse scale allows reading from both sides without turning the ruler over
- Play-free, wear-free spring joint with 90-degree detent at all joints
- Fibreglass-reinforced polyamide: scratch-resistant, bend-resistant, chemical-resistant, does not swell with water
- Deep-embossed scale in 1 mm increments, tens marked in red

TECHNICAL DATA

- Length: 2 m (10 segments)
- Segment width: 15 mm
- Folded dimensions: 235 x 32 x 15 mm (L x W x D)
- Material: Fibreglass-reinforced polyamide
- Colour: White
- Accuracy: EU standard class III, CE compliant

APPLICATIONS

For measuring and marking on construction sites, in joinery and installation trades. The three-in-one function is especially useful for lone workers who cannot hold a second tool. Made in Switzerland, HS 90178010.
