

Universal Tweezers Professional ESD Type AA, 130 mm - Wiha 32318

Item no. WH-32318

Manufacturer Wiha

EAN 4010995323189

Antistatic universal tweezers in special-alloy chrome-nickel stainless steel for all common electronics applications. Non-reflective black coating, antimagnetic and acid-resistant, with a surface resistance of 10^6 to 10^9 ohms. Straight tip with a strong gripping surface for reliable handling of PCB components.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
HS-Code	82032000
Weight	0.02 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The Wiha Universal Tweezers Professional ESD Type AA deliver reliable electrostatic discharge protection for sensitive electronic components. With a surface resistance of 10^6 to 10^9 ohms they meet IEC 61340-5-1 requirements, making them suitable for use in EPA-controlled environments.

BENEFITS

- ESD-safe: surface resistance 10^6 - 10^9 ohms, certified to IEC 61340-5-1
- Antimagnetic and acid-resistant for demanding work environments
- Non-reflective black coating, antistatic treatment throughout
- Smooth gripping surfaces without grooves for gentle component handling
- Straight, strong tip shape for universal use in electronics assembly

TECHNICAL DATA

- Type: AA
- Overall length: 130 mm
- Dimensions: 140 x 11 x 5 mm (L x W x D)
- Tip shape: straight with strong tip
- Material: special-alloy, non-rusting chrome-nickel stainless steel

- Surface resistance: 10^6 - 10^9 ohms

APPLICATIONS

Suitable for all standard electronics tasks, particularly gripping and placing components on circuit boards. For use in ESD-protected work areas (EPA). Made in Germany. Standard: IEC 61340-5-1.
