

Screwdriver SoftFinish Slotted 530, 6.5 x 125 mm with Hex Blade and Solid Steel Cap - Wiha 03226

Item no. WH-03226

Manufacturer Wiha

EAN 4010995032265

The Wiha 530 SoftFinish slotted screwdriver 6.5 x 125 mm features a hex bolster AF 10 for use with a spanner to boost torque, and a solid steel striking cap for hammer-assisted loosening of seized fasteners. The AGR-recommended SoftFinish handle adapts grip size to the screw application.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82054000
Weight	0.156 kg

DESCRIPTION

The Wiha 530 SoftFinish 6.5 x 125 mm is built for situations where a standard screwdriver lacks the torque or the grip to free a stuck fastener. The hex bolster (AF 10) lets you fit a spanner for extra leverage, while the integral steel cap at the handle end transmits hammer blows directly to the blade. Chrome-vanadium-molybdenum steel and the ChromTop tip guarantee dimensional accuracy over long service life.

BENEFITS

- Hex bolster AF 10 for spanner - higher torque where needed
- Solid steel striking cap - direct energy transfer to blade for tight screws
- SoftFinish handle size concept - AGR-endorsed ergonomic grip
- ChromTop blade tip - precise engagement in 6.5 mm slots
- Chrome-vanadium-molybdenum steel, matt chrome - long-lasting performance

TECHNICAL DATA

- Slot width: 6.5 mm
- Blade thickness: 1.2 mm
- Visible blade length: 125 mm
- Hex blade diameter: 6 mm
- Hex bolster: AF 10
- Handle diameter: 36 mm

- Overall length: 238 mm
- Material: chrome-vanadium-molybdenum steel, matt chrome

APPLICATIONS

Dry applications in industry and trades. Suited to driving, loosening seized screws, and chiseling tasks. Made in Germany (HS 82054000).
