DESCRIPTION

The Wiha Safety soft-faced hammer 832-13 with 30 mm face diameter and 290 mm overall length is designed for applications requiring maximum surface protection. Soft to medium-soft plastic faces prevent any marking of polished, coated, or otherwise delicate workpiece surfaces, making it suitable for precision assembly, fine sheet metal, and finishing work.

BENEFITS

- Two soft to medium-soft plastic faces for maximum surface protection on delicate workpieces
- Recoiling impact effect reduces effort during repeated striking
- High-grade hickory wooden handle with an effective non-slip surface
- Hammer faces and handle available as spare parts
- GS-tested quality to German product safety standards
