

Precision Tweezers Professional ESD Type 5, Needle-Fine Tip, 110 mm - Wiha 32334

Item no. WH-32334

Manufacturer Wiha

EAN 4010995323349

ESD-safe precision tweezers in special-alloy chrome-nickel stainless steel with a needle-fine straight tip for maximum precision in electronics fine work. Non-reflective black coating, antimagnetic and acid-resistant. Surface resistance 10^6 to 10^9 ohms per IEC 61340-5-1.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
HS-Code	82032000
Weight	0.014 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The Wiha Precision Tweezers Professional ESD Type 5 with their needle-fine tip are the first choice for extremely small components and fine wires in electronics manufacturing and microelectronics. Antimagnetic, acid-resistant chrome-nickel stainless steel with a surface resistance of 10^6 to 10^9 ohms provides reliable ESD protection.

BENEFITS

- ESD-safe: surface resistance 10^6 - 10^9 ohms, certified to IEC 61340-5-1
- Needle-fine straight tip for precise access to the smallest components
- Smooth gripping surfaces without grooves for careful handling of sensitive components
- Non-reflective black coating, antimagnetic and acid-resistant
- Special-alloy, non-rusting chrome-nickel stainless steel

TECHNICAL DATA

- Type: 5
- Overall length: 110 mm
- Tip shape: straight, needle-fine
- Material: special-alloy, non-rusting chrome-nickel stainless steel

- Surface resistance: 10^6 - 10^9 ohms

APPLICATIONS

For precise gripping and holding of the smallest electronic components in ESD-protected work areas (EPA). Suitable for microelectronics, fine assembly and watchmaking. Made in Germany. Standard: IEC 61340-5-1.
