

Soft-faced Hammer Safety medium soft/hard, Ø 30 mm, 290 mm with hickory handle - Wiha 26653

Item no.	WH-26653	Manufacturer	Wiha
Manufacturer no.	26653	EAN	4010995266530

The Wiha Safety soft-faced hammer 832-15 with 30 mm round hammer face and hickory handle is ideal for measured positioning blows in tool making, automotive, and assembly work. Two faces: medium-hard (yellow) and soft (blue). GS tested, overall length 290 mm.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Poland
Execution	TEC
HS-Code	82052000
Weight	0.272 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Wiha Safety soft-faced hammer 832-15 in the compact 30 mm version delivers precise positioning blows without recoil. The special metal filling in the head and the approx. 25% greater head mass provide added impact power while protecting the user's joints.

Benefits

- Recoilless action with approx. 25% greater head mass - protects joints during use
- Yellow medium-hard face (Ø 30 mm) for tool making, mechanical engineering, automotive, sheet metal and assembly work
- Blue soft face (Ø 30 mm) for furniture manufacturing, interior fitting, and light assembly

- Protects delicate surfaces and edges through controlled, full-contact impact
- Hickory wooden handle and hammer faces available separately as spare parts

Technical data

- Diameter hammer face: 30 mm
- Overall length: 290 mm
- Hammer head height: 87 mm
- Dimensions: 290 x 87 x 34 mm (L x W x D)

Applications

Medium-hard face for tool making, mechanical engineering, car repairs, and sheet metal work. Soft face for furniture manufacturing, interior fitting, and light assembly including positioning on machine vices. Made in Poland, HS 82052000. GS tested.
