

Electronic Diagonal Cutters Narrow Pointed Head without Bevel 128 mm - Wiha 27388

Item no. WH-27388

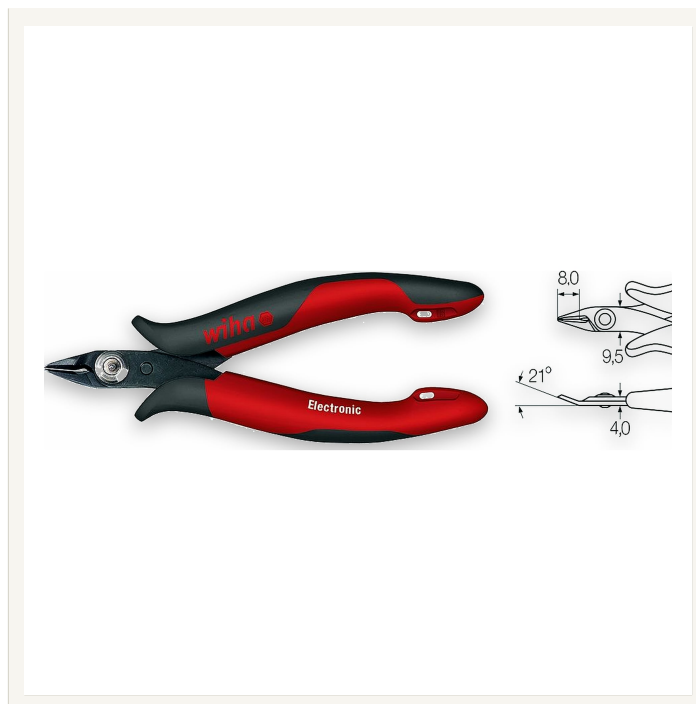

Manufacturer Wiha

EAN 4010995273880

The Wiha Electronic diagonal cutters with a very narrow, pointed head and cutting edge without exterior bevel deliver absolutely flush cuts on soft wires up to 0.8 mm in difficult-to-access spots in electronic engineering. C 70 special tool steel with inductively hardened precision-honed edges (approx. 56 HRC) and opening spring for fatigue-free work. Ideal for precision electronics and fine mechanics.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Italy
HS-Code	82032000
Weight	0.102 kg

STANDARDS & COMPLIANCE

DIN ISO 9654

DESCRIPTION

When assembling or reworking electronic components, precision and access to tight spaces are critical. The Wiha Electronic diagonal cutters with an extremely narrow, short head reach even the most confined board areas. The cutting edge without exterior bevel produces clean, flush cuts on soft wires with no residual burr.

BENEFITS

- Extremely narrow, short head for work in difficult-to-access locations
- Cutting edge without exterior bevel for absolutely flush cuts on soft wires
- C 70 special tool steel with inductively hardened, precision-honed edges (approx. 56 HRC)
- Opening spring for smooth, fatigue-free work during extended use
- Ergonomically shaped handles for comfortable grip

TECHNICAL DATA

- Overall length: 128 mm (5 1/8")
- Max. wire diameter (soft): 0.8 mm
- Cutting force: level 2
- Dimensions: 138 x 100 x 20 mm (L x W x D)

APPLICATIONS

For absolutely flush cutting of soft wires in difficult-to-access spots in electronics and fine mechanics.
Made in Italy. Standard: DIN ISO 9654.
