

SMD Tweezers Professional ESD Type 59, 117 mm - Wiha 32344

Item no. WH-32344

Manufacturer Wiha

EAN 4010995323448

ESD-safe SMD special tweezers with a 35° angled tip (approximately 2 mm wide, shaped gripping end for Ø 0.8 mm) for gripping and holding horizontally arranged SMD components. Made from specially alloyed chrome nickel stainless steel, certified to IEC 61340-5-1.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
HS-Code	82032000
Weight	0.016 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The Wiha Professional ESD SMD Tweezers Type 59 are optimised for the precise pick-up of flat SMD components lying horizontally on PCBs. The 35° angled, approximately 2 mm wide tip with a shaped gripping end for Ø 0.8 mm reaches even the smallest components; ribbed handle surfaces provide additional control during fine work.

BENEFITS

- 35° angled tip, 2 mm wide with 0.8 mm gripping end - grips the smallest horizontal SMD components
- ESD-safe to IEC 61340-5-1 - surface resistance 10^6 to 10^9 ohms
- Smooth gripping surfaces and ribbed handles - precise control and secure grip
- Non-magnetic and acid resistant - suitable for cleanroom and series production
- Anti-glare black coating - clear view of the workpiece under optical aids

TECHNICAL DATA

- Type: 59
- Overall length: 117 mm
- Dimensions: 136 x 100 x 5 mm (L x W x D)

- Material: Specially alloyed rust-free chrome nickel stainless steel
- Tip shape: 35° angled, approx. 2 mm wide, shaped gripping end for Ø 0.8 mm
- Standard: IEC 61340-5-1
- Country of origin: Germany

APPLICATIONS

Assembly and rework of PCBs with very small horizontal SMD components, and quality assurance in electronics manufacturing.
