

Screwdriver SoftFinish Pozidriv 532 PZ3 x 150 mm with Hex Blade and Solid Steel Cap - Wiha 03247

Item no. WH-03247

Manufacturer Wiha

EAN 4010995032470

The Wiha 532 SoftFinish Pozidriv PZ3 x 150 mm is the most powerful model in the 532 range for large PZ3 fasteners: hex bolster AF 13 for maximum spanner-assisted torque, solid steel striking cap, and a large-diameter SoftFinish handle (41 mm, AGR-recommended).

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82054000
Weight	0.245 kg

DESCRIPTION

Large Pozidriv PZ3 fasteners in industrial or machine-building use demand the highest torque and striking capability the 532 range can provide. The Wiha 532 SoftFinish PZ3 x 150 mm delivers: the hex bolster (AF 13) takes a heavy spanner for substantially increased torque output, and the solid steel cap channels hammer blows without energy loss through the 150 mm CrVMo blade to the PZ3 recess. The ChromTop tip holds its geometry in the large Pozidriv profile under repeated heavy use.

BENEFITS

- Hex bolster AF 13 - maximum spanner-assisted torque for large PZ3 screws
- Solid steel striking cap - full hammer energy to the 150 mm blade
- Large SoftFinish handle 41 mm - AGR-recommended for powerful driving
- ChromTop blade tip - accurate engagement in the large PZ3 profile
- CrVMo steel, matt chrome - dimensional stability under heavy loads

TECHNICAL DATA

- Pozidriv profile: PZ3
- Visible blade length: 150 mm
- Hex blade diameter: 8 mm
- Hex bolster: AF 13
- Handle diameter: 41 mm
- Overall length: 268 mm

- Material: chrome-vanadium-molybdenum steel, matt chrome

APPLICATIONS

Heavy-duty dry applications in industry and machine building. For large Pozidriv PZ3 screws requiring high torque or hammer-driven loosening. Made in Germany (HS 82054000).
