DESCRIPTION

Extracting at several or spread-out soldering stations calls for a flexible link between the capture point and the filter unit. This grey DN50 extraction hose in PE 2000 is supplied by the meter without an end piece, ordered in the length you need and carries solder fume reliably to the ULT WSA-LR extractors.

BENEFITS

- 50 mm tube diameter (DN50) matching the ports of the WSA-5LR, WSA-10LR and WSA-20LR.
- PE 2000 is light, dimensionally stable and chemically resistant to solder fume constituents.
- Reach up to 1000 mm bridges the gap between unit and soldering point.
- Suitable for ceiling, bench and wall mounting, so it fits varied workstation layouts.
- Supplied by the meter without an end piece, cut flexibly to the length required.
