

Screwdriver SoftFinish Slotted 530, 12.0 x 200 mm with Hex Blade and Solid Steel Cap - Wiha 03231

Item no. WH-03231

Manufacturer Wiha

EAN 4010995032319

The Wiha 530 SoftFinish slotted screwdriver 12.0 x 200 mm is the most powerful in the 530 range: hex bolster AF 16 for maximum spanner-assisted torque, solid steel striking cap, and a 200 mm blade for deep-set fasteners. The 41 mm SoftFinish handle carries the AGR ergonomic recommendation.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	82054000
Weight	0.345 kg

DESCRIPTION

For heavy-duty slotted screws in industrial settings, the Wiha 530 SoftFinish 12.0 x 200 mm delivers the highest torque and striking capability of the 530 series. The hex bolster (AF 16) accommodates a large spanner, multiplying the torque available beyond what any handle alone can provide. The steel cap is integrally connected to the blade so hammer blows reach the screw head without energy loss. CrVMo steel and the ChromTop tip hold their form even under sustained heavy use.

BENEFITS

- Hex bolster AF 16 - maximum torque transfer with a spanner
- Solid steel striking cap and 200 mm blade - full hammer energy to the fastener
- Largest slot width 12.0 mm in the 530 series - for the heaviest applications
- SoftFinish handle 41 mm - AGR-recommended ergonomic power grip
- CrVMo steel, matt chrome - dimensional accuracy under heavy loads

TECHNICAL DATA

- Slot width: 12.0 mm
- Blade thickness: 2 mm
- Visible blade length: 200 mm
- Hex blade diameter: 10 mm
- Hex bolster: AF 16
- Handle diameter: 41 mm

- Overall length: 321 mm
- Material: chrome-vanadium-molybdenum steel, matt chrome

APPLICATIONS

Heavy-duty dry applications in industry and machine building. For large slotted screws, chiseling, and all tasks requiring maximum torque with a screwdriver. Made in Germany (HS 82054000).
