

Access control PD 8000S for EPA-RESIST 8000

Item no. EP0206067

Manufacturer A1-ESD

Extended access control for cascading the EPA-RESIST 8000 personnel test centre (master-slave). After data comparison via RFID card it releases further EPA areas. With 3 relay contacts and a LAN connection, usable only together with the EPA-RESIST 8000.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Certification	IEC 61340-5-1
Country of Manufacture	Germany
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

IEC 61340-5-1

DESCRIPTION

The PD 8000S extends the EPA-RESIST 8000 personnel test centre with additional EPA entrances. Persons who have passed the test at the EPA-RESIST 8000 gain access to further areas with their RFID card after a data comparison.

MAIN FUNCTIONS

- Cascading in master-slave operation with the EPA-RESIST 8000
- RFID detection of the employee card
- Release of further EPA entrances after data comparison
- Administration via integrated web application, no software installation required

TECHNICAL DATA

- 3 relay contacts for access release
- LAN connection for the link to the EPA-RESIST 8000
- RFID detection of the employee card
- Usable only together with the EPA-RESIST 8000

APPLICATION

Extension of access control for distributed EPA areas as part of personnel grounding control to IEC 61340-5-1.
