

Dead-blow soft-faced hammer 35 mm, medium-hard faces, steel tube handle - Wiha 02124

Item no. WH-02124

Manufacturer Wiha

EAN 4010995021245

The Wiha 802 soft-faced hammer with a 35 mm round hammer face delivers completely recoilless blows thanks to cast iron balls filling the hammer head. Medium-hard yellow faces protect sensitive surfaces during positioning work in tool engineering, car repairs, and assembly. The ergonomic steel tube handle with non-slip grip transfers force accurately while protecting joints.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Poland**

HS-Code **82052000**

Weight **0.659 kg**

DESCRIPTION

When precise positioning blows are needed on sensitive workpieces, the hammer must neither damage surfaces nor strain the user through recoil. The Wiha 802 soft-faced hammer with 35 mm face diameter solves both: cast iron balls inside the hammer body absorb the full recoil, protecting joints even during extended use.

BENEFITS

- Completely recoilless operation via cast iron ball filling - protects joints during repetitive use
- Medium-hard yellow hammer faces for universal use in tool and machine engineering, sheet metal, and assembly work
- Around 25% higher hammer head mass than standard delivers extra striking power with controlled impact
- Steel tube handle with ergonomic, non-slip grip for fatigue-free work
- Hammer faces available as spare parts - extends the service life of the tool

TECHNICAL DATA

- Hammer face diameter: 35 mm
- Overall length: 300 mm
- Hammer head height: 118 mm
- Product dimensions: 300 x 118 x 35 mm (L x W x D)
- Weight: 0.659 kg

APPLICATIONS

Measured positioning blows on workpieces in machine vices, assembly work in tool and machine engineering, car repairs, sheet metal and assembly work. Especially suitable wherever striking faces and edges must not be damaged.

Made in Poland. HS code: 82052000.
