

Dead-blow soft-faced hammer 45 mm, medium-hard faces, steel tube handle - Wiha 02126

Item no. WH-02126

Manufacturer Wiha

EAN 4010995021269

The Wiha 802 soft-faced hammer with a 45 mm round face works completely recoilless through cast iron balls inside the hammer body. Medium-hard yellow faces protect sensitive workpiece surfaces during positioning blows in machine engineering and assembly. The ergonomic steel tube handle with non-slip grip delivers forceful, joint-protecting use.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82052000
Weight	0.935 kg

DESCRIPTION

The Wiha 802 soft-faced hammer with 45 mm face is particularly suited where a larger contact area is needed and workpiece surfaces must not be damaged. The cast iron ball filling absorbs recoil completely, and the around 25% greater head mass delivers additional striking force precisely where required.

BENEFITS

- Completely recoilless operation via cast iron ball filling - protects joints even during frequent use
- Medium-hard yellow hammer faces for tool and machine engineering, car repairs, sheet metal, and assembly work
- Around 25% more hammer head mass than standard for increased striking power with controlled impact
- Steel tube handle with ergonomic, non-slip grip for fatigue-free work
- Hammer faces available individually as spare parts

TECHNICAL DATA

- Hammer face diameter: 45 mm
- Overall length: 310 mm
- Hammer head height: 130 mm
- Product dimensions: 310 x 130 x 45 mm (L x W x D)
- Weight: 0.935 kg

APPLICATIONS

Measured positioning blows on workpieces in machine vices, assembly work in tool and machine engineering, car repairs, sheet metal and assembly work. Suitable wherever surfaces and edges must be protected from impact marks.

Made in Poland. HS code: 82052000.
